About Dynamic Integrated Services

Dynamic Integrated Services (DIS) is a Service-Disabled Veteran-Owned Small Business (SDVOSB) providing management consulting services to the Federal Government and organizations supporting federal agencies. With many years of public sector expertise, DIS offers client services and support in the areas of operational informational technology, innovative technical solutions, human capital management, and strategic communications and integrated marketing.

Information Technology (IT) to Secure and Integrate

Continuing IT automation, and the expansion of cloud-based services and digital business require new approaches to align and safeguard the physical and digital worlds of people and organizations. DIS utilizes our decades of experience to usher in strategic thinking, new technologies, and innovative ideas to improve processes, remove inefficiencies, and protect information how and where our clients need it. DIS delivers a suite of flexible information technology (IT) and information security solutions that reduce costs, mitigate risks, and facilitate compliance. The technical knowledge and industry expertise of our professionals help organizations make informed decisions to reach IT goals. Our work increases operational capacity by streamlining processes, integrating systems, and maximizing technology investment.

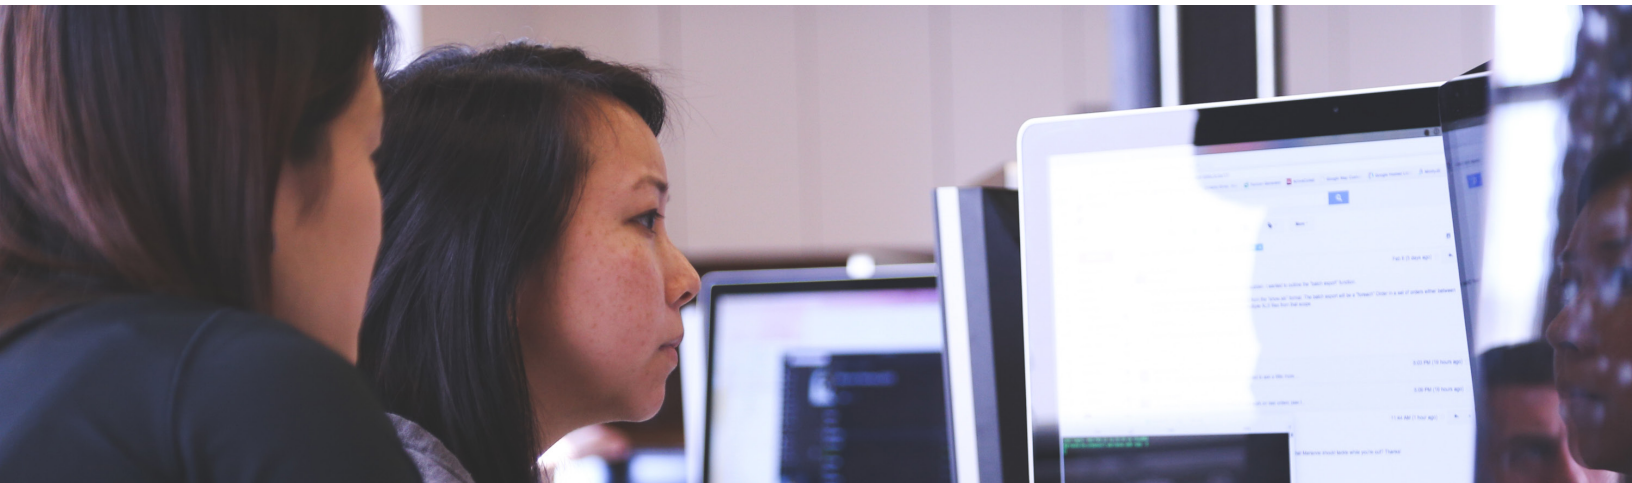

As a full-service consulting firm, we work closely with clients to develop specific policies, procedures, and solutions that fit their business needs. Our information technology team delivers secure, integrated solutions to its clients.

Information Technology Team

- Understands the complex nature of systems integration and information security
- Conceptualizes, designs, develops, documents, provides training for, deploys, integrates and maintains custom IT solutions
- Protects data, minimize risk, and ensure compliance with HIPAA/HITECH Acts
- Continually examines program policy and design, the exposures within a system, and their likelihood of exploit
- Combines extensive interviews, documentation, reviews, observations and technical analysis to form assessments

Whether assessing vulnerabilities or implementing a new information security strategy, DIS's extensive IT experience has helped federal clients such as the Department of Veterans Affairs (VA), Veterans Benefits Administration (VBA), as well as other commercial and government health care clients, to maintain and enhance their information management systems.

President and Chief Operating Officer **SCOTT SEMPLE**

Scott E. Semple serves as the Chief Operating Officer and IT lead for DIS. A proven executive with more than 30+ years of hands-on management and leadership of technology, Scott has served as a senior business executive, entrepreneur, technologist, and strategic technology consultant to Federal and commercial clients globally. He has successfully envisioned and led several technology-based businesses from concept to profitability and exit, both as entrepreneur and corporate executive. Extensive experience in corporate and business development, product and service creation and management, IP creation (awarded US patent), emerging technologies (including cloud and green computing, cyber security, managed services), marketing, operations, JVs and strategic alliances. Scott has a deep personal network of Federal leaders in DoD and civilian agencies as well as commercial firms.
